<i>The Aim of This Book</i>	ix
<i>Coverage of the Book</i>	xi
<i>Pedagogy</i>	xiii
<i>Chapter Heads</i>	xv

CHAPTER 1 Supply Chain Management Perspective

1.1	Introduction	1
1.2	Evolution and Landmarks	2
1.3	Supply Chain Management	3
1.4	Logistics and Supply Chain Management	5
1.5	The Story of the Sugar Supply Chain	6
1.6	Logistics and Supply Chain Perspectives	7
1.7	Value Chain, Value System, and Supply Chain	8
1.8	Supply Chain Macro Process	11
1.9	Interface of Technology, Process, and People Revolutionizing Supply Chain	15
1.10	Supply Chain Decision Hierarchy	17
1.11	Span of Decisions and Professional Excellence in SCM	18
	◆ Summary	19
	◆ Keywords	20
	◆ Discussion Questions	21
	◆ Critical Thinking Questions	21
	◆ References	21

CHAPTER 2 Supply Chain Structure

2.1	Classification of Supply Chain Structure: Efficiency vs. Responsiveness	23
2.2	Efficiency vs. Responsiveness	25

	PAGE	
2.3	Boundary for Efficient and Responsive Supply Chain	27
2.4	Push-Based Supply Chain	29
2.5	Key Conditions Enabling Push-Based Supply Chain	29
2.6	Managerial Levers for Achieving Cost-efficient Supply Chain	31
2.7	Commodity and Cost-Centric Supply Chain	32
2.8	Pull-based Supply Chain	34
2.9	Key Conditions Enabling Pull-Based Supply Chain	35
2.10	Managerial Levers for Achieving Effectiveness in Pull-Based Strategy	36
2.11	Agile Supply Chain in Certainty	38
2.12	Supply Chain for Facing Calamities and Emergencies	40
2.13	Virtual Organization – Pull Centric	41
2.14	Trade-off between Push and Pull Strategies	42
2.15	Identifying Appropriate Push and Pull Strategy	44
	◆ Summary	44
	◆ Key Terms	45
	◆ Discussion Questions	46
	◆ Critical Thinking Questions	46
	◆ References	47

CHAPTER 3 Supply Chain Drivers: Role and Relevance

3.1	Supply Chain Drivers and Their Importance on Supply Chain Performance	51
3.2	Defining the Role of Facilities and Their Importance to SCM	54
	3.2.1 Role of Facilities in Supply Chain	54
	3.2.2 Facility as Drivers and Competitive Forces	55
	3.2.3 Key Facility Decisions	57
3.3	Defining the Role of Inventory and Its Importance in SCM	57
	3.3.1 Inventory as Driver and Competitive Forces	58
	3.3.2 Components of Inventory	60
3.4	Defining the Role of Transportation and Its Importance to SCM	61
	3.4.1 Transportation as a Driver and Competitive Forces	62
3.5	Defining the Role of Information and Its Importance to SCM	64
	3.5.1 Information as a Driver and Competitive Forces	65
3.6	Defining the Role of Sourcing and Its Importance to SCM	66
	3.6.1 Sourcing as a Driver and Competitive Forces	67
3.7	Defining the Role of Pricing and Its Importance to SCM	69

	PAGE
3.8 Balancing the Configuration of Drivers and Strategic Focus	71
3.9 Trade-offs in Designing Supply Chain Drivers	71
3.9.1 Demand and Supply Conditions	71
3.9.2 Negotiating Power of Suppliers	72
3.9.3 Negotiating Power of Buyers	73
3.9.4 Innovations and Competitive Behaviour	73
3.9.5 Resource-led	74
3.9.6 Technology	75
3.9.7 Government Policies	75
3.9.8 Changing Structure of Logistics Service Providers	76
◆ Summary	77
◆ Key Terms	78
◆ Discussion Questions	79
◆ Critical Thinking Questions	80
◆ Project Assignments	80
◆ References	80

CHAPTER 4 Decision Environment

4.1 External Factors Relevant to Supply Chain Decision	83
4.1.1 Macro Environment	84
4.1.2 Industry and Competitive Factors	87
4.1.3 Technological Environment	88
4.2 Resource-Driven Decision Environment: Opportunities and Constraints	89
4.3 Support Systems for Mapping Decision Environment	90
◆ Summary	91
◆ Annexure 1	92
◆ Key Terms	93
◆ Descriptive Questions	94
◆ Critical Thinking Questions	94
◆ References	94

CHAPTER 5 Strategic Decision in SCM

5.1 Introduction	99
5.2 Linking Strategic Supply Chain Decision with Corporate Strategies	99
5.3 Linking Strategic Supply Chain Decisions with Strategic Business Level Strategies	102

	PAGE
5.4	Linking Strategic Supply Chain Decisions with Functional Level Strategies 103
5.5	Nature of Strategic Decisions Involving Supply Chain Drivers 104
5.6	Role of Third-Party and Integrated Logistics Service Providers 107
5.6.1	Deployment of an Outsourced Partner for Supply Chain Activities 107
5.6.2	Value Propositions of Logistics Service Outsourcing 108
5.6.3	Impediments in Third-Party/Integrated Logistics Service 109
5.7	Fourth-Party Logistics Service Provider (4PL) 111
5.7.1	4PL and Value Enhancement 112
5.7.2	Comparison of LSPs Including 3PL and 4PL 112
◆	Summary 112
◆	Key Terms 114
◆	Descriptive Questions 115
◆	Critical Thinking Questions 115
◆	Project Assignments 115
◆	References 115

CHAPTER 6 Role of Transportation in the Supply Chain

6.1	Role of Transportation in the Supply Chain 119
6.2	Transportation – Key Role Players 120
6.3	Factors that Influence Transport Decision 121
6.4	Transportation Principles 122
6.5	Transportation Modes, Performance Characteristics and Selection 122
6.5.1	Airways 123
6.5.2	Road Transportation 123
6.5.3	Railway Transport 124
6.5.4	Water Transport 124
6.5.5	Pipeline 125
6.5.6	Ropeways 125
6.5.7	Intermodal Transportation 125
6.6	Transportation Performance, Costs, and Value Measures 126
6.6.1	Factors Driving Costs 126
6.6.2	Cost Structures 127
6.6.3	Carrier Pricing Strategies 128
6.6.4	Transportation Rates 128
6.7	Transportation Mode Selection 129

	PAGE
6.8 Speed of Delivery and Choice of Mode	129
6.9 Inventory Aggregation and Transportation Cost Management	130
6.10 Vehicle Scheduling and Routing	134
◆ Summary	141
◆ Key Terms	142
◆ Descriptive Questions	143
◆ Critical Thinking Questions	144
◆ References	145
CHAPTER 7 Network Decisions	
7.1 Choices of Network Configurations	147
7.1.1 Direct Shipping	148
7.1.1.1 Supplier to Customer	149
7.1.1.2 Direct Shipping from the Manufacturer to a Customer	149
7.1.2 Through Intermediary	151
7.1.2.1 Intermediary Value Addition and Then to Customer	151
7.1.2.2 Distributor Direct Delivery Responsibility	153
7.1.2.3 Delivery Responsibility with Carrier	153
7.1.3 Customer Pick-up	154
7.1.3.1 From the Distribution Centre	154
7.1.3.2 Customer Pick-up from Retail Storage	155
7.2 Challenges in Configuring a Network	156
7.3 Tools and Models Available	157
7.3.1 A Strategic Facility Location Model with Single Capacity Choice	158
7.3.2 A Strategic Facility Location Model with Two Capacities Choice	162
7.3.3 Demand Allocation across Different Facilities with Fixed Capacities	166
7.3.4 Strategic Gravity Location for a Facility/Warehouse	169
7.3.5 Uncertainty and Application of Probability	172
7.3.6 Other Representations of Uncertainty	175
7.4 Analysis and Selection of Network	175
◆ Summary	177
◆ Appendix A	178
◆ Appendix B	181
◆ Appendix C: Sensitivity Analysis	181
◆ Key Terms	182

	PAGE
◆ Concept Review Questions	183
◆ Critical Thinking Questions	184
◆ Project Assignments	185
◆ References	186

CHAPTER 8 **Role of Sourcing**

8.1	The Importance of Sourcing in a Supply Chain	187
8.2	Definition of Purchasing, Procurement, and Sourcing	189
8.3	Buying Decision Grid Matrix and Guidelines	189
8.3.1	Bargaining Power of Buyers and Sellers and Relevance in the Sourcing Chain	191
8.4	Purchasing	193
8.4.1	Receipt for Request to Buy & Preparation of Request for Proposal or Tender Document	194
8.4.2	Floating an Enquiry Depending on the Size of Buy and Administrative Procedures	195
8.5	Procurement Process	197
8.6	Strategic Sourcing	198
8.6.1	Outsourcing	198
8.6.2	Supplier Development	199
8.6.2.1	Supplier Development – Concern Areas	200
8.6.3	Design Collaboration	206
8.7	Technology for Sourcing Functions	207
◆	Summary	207
◆	Annexure 1	209
◆	Key Terms	209
◆	Descriptive Questions	210
◆	Critical Thinking Questions	211
◆	Project Assignments	212
◆	References	212

CHAPTER 9 **Supply Chain Tactical Planning**

9.1	Introduction	213
9.2	Demand Planning and Forecasting	214
9.2.1	Qualitative Techniques	215
9.2.2	Quantitative Techniques	216
9.3	Collaborative Planning Forecasting and Replenishment (CPFR) and ECR	223
9.4	Aggregate Planning and Sales and Operations Planning	229

	PAGE
9.4.1 Aggregate Planning	229
9.4.2 Sales and Operations Planning	233
9.5 Scope of Planning Initiatives across the Supply Chain	236
◆ Summary	238
◆ Key Terms	239
◆ Descriptive Questions	240
◆ Critical Thinking Questions	241
◆ Project Assignments	242
◆ Annexure	242
◆ References	244

CHAPTER 10 **Role of Inventory Management**

10.1 Introduction	245
10.2 Definition and Types of Inventory	246
10.2.1 Inventory within the Supply Chain Network	246
10.2.2 Importance of Inventory in the System	247
10.2.3 Types of Inventory	248
10.3 Classification of Inventory	248
10.4 Costs to be Reckoned while Holding Inventory	249
10.5 Inventory Management	250
10.5.1 ABC Analysis	251
10.5.2 Inventory Accuracy	252
10.6 Control of Inventories in Retail and Services	254
10.7 Inventory Models	254
10.7.1 Independent versus Dependent Demand	254
10.7.2 Inventory Models for Independent Demand	255
10.7.2.1 The Basic Economic Order Quantity (EOQ) Model	256
10.7.2.2 Production Order Quantity Model	260
10.7.2.3 Quantity Discount Models	261
10.7.3 Probability Models with Constant Lead Time	263
10.7.4 Fixed-Period (P) System	266
10.8 Inventory in Supply Chain - Efficiency and Effectiveness	268
10.9 Inventory Control Problems	268
◆ Summary	269
◆ Key Terms	270

	PAGE
◆ Discussion Questions	271
◆ Critical Thinking Questions	272
◆ Case for Discussion	274
◆ Project Assignments	275
◆ References	275
<hr/>	
CHAPTER 11	Operation Practices
11.1	Operational Practices in Supply Chain 277
11.2	Just-in-Time 278
11.2.1	JIT Efforts 279
11.2.2	Reasons for JIT Efforts 280
11.2.3	Mission of JIT 282
11.3	Kanban 283
11.3.1	Arriving at Order Size while Using Kanban Cards or Containers 283
11.4	Vendor Managed Inventory 284
11.4.1	Advantages of VMI 285
11.5	Quality 287
11.6	Supply Chain Security Management 288
◆ Summary	292
◆ Key Terms	293
◆ Descriptive Questions	294
◆ Critical Thinking Questions	294
◆ Project Assignments	295
◆ References	295
<hr/>	
CHAPTER 12	Managing Obstacles and Enabling Coordination
12.1	Financial Flow Management 297
12.1.1	Problems in Financial Flow Synchronization 299
12.1.2	Role of Technology in Financial Flows 300
12.2	Bullwhip Effect in Supply Chain 301
12.3	Behavioural Obstacles 307
12.4	Approaches to Improve Coordination 308
◆ Summary	310
◆ Key Terms	311
◆ Discussion Questions	312

	PAGE
◆ Critical Thinking Questions	313
◆ Project Assignments	314
◆ References	314
◆ Annexure 1	314
CHAPTER 13	
Global Supply Chain Perspectives	
<hr/>	
13.1 Aspects of the Global Supply Chain	317
13.2 Global Supply Chain and Utilities	319
13.3 Cost Drivers and Impact on Global Supply Chain Configuration	321
13.3.1 Resource-based Costs, Including Material and Labour	321
13.3.2 International Freight Tariffs	322
13.3.3 Currency Exchange Rates	322
13.3.4 Duty Rates	323
13.4 Responsiveness-based Global Supply Chain Configuration	323
13.4.1 Response Time	324
13.4.2 Product Variety	324
13.4.3 Product Availability	325
13.4.4 Customer Experience	325
13.4.5 Order Visibility	326
13.4.6 Post-sale Service and Returns Management	326
13.5 Challenges in Establishing a Global Supply Chain	326
13.5.1 Political, Legal, Societal, and Technological Factors	328
13.5.2 Infrastructure and Support System	328
13.6 Micro Factors that Influence the Designing of Global Supply Chain Network	328
13.7 Global Supply Chain Intense Business: An Analysis	330
13.8 Supply Chain Risk and Its Management	331
13.9 Changing Perspective of Logistics Infrastructure	333
◆ Summary	334
◆ Appendix 1	335
◆ Key Terms	336
◆ Discussion Questions	337
◆ Critical Thinking Questions	338
◆ Project Assignments	338
◆ References	338

	PAGE
CHAPTER 14	Supply Chain Digitalization, Analytics, and Business Models
14.1	Supply Chain Digitalization 340
14.2	Future Trends in Supply Chain Digitalization 343
14.3	Supply Chain IT System and Analytics 344
14.4	Supply Chain Management Systems (SCM) 345
14.5	Use of Analytics Software 347
14.6	Benefits of Appropriate IT Applications 348
14.6.1	How Does it Work 352
14.6.2	Types of Analytics Software 352
14.6.3	Future of Analytics 353
14.7	Digital Twins and Analytics 353
14.8	New Business Model and Supply Chain Configurations 355
14.8.1	Defining Business Model 355
14.8.2	Supply Chain and Business Models 356
14.8.3	Process Improvements, Technology Adaption, and Business Models 357
14.8.4	Challenges and Learning 358
◆	Summary 360
◆	References 360
◆	Key Terms 361
◆	Concept Review Questions 362
◆	Critical Thinking Questions 363
◆	Project Assignments 364
◆	Annexure 1 364
◆	Annexure 2: List of Leading Supply Chain Software Suppliers 373
CHAPTER 15	Aligning Sustainability in Supply Chain and Business
15.1	Importance of Sustainability 377
15.2	Green Supply Chain Management 381
15.2.1	Benefits of GSCM 383
15.3	Ethical Supply Management 385
15.4	Technology and AI 392
15.5	Tragedy of Commons 395
15.6	CSR ESG (Government Regulations) 396
15.6.1	Definition of Corporate Social Responsibility 397
15.6.2	Benefits of These Practices 398

	PAGE
15.6.3 Challenges to CSR Initiatives in India	399
15.6.4 Room for Improvement	400
15.6.5 The Function of Regulations and Incentives in Enhancing Sustainability	401
◆ Conclusion	401
◆ References	401
◆ Annexure 1	402
◆ Annexure 2	405
◆ Annexure 3	406
◆ Discussion Questions	409
◆ Critical Thinking Questions	409
◆ Project Assignments	409
CHAPTER 16	
Supply Chain Finance	
<hr/>	
16.1 What is Supply Chain Finance?	411
16.2 History of SCF	412
16.3 How Are Agreements Set up between Buyers and Sellers?	413
16.4 What Are Some Issues with Supply Chain Financing?	415
16.5 What Are Some Countries that Heavily Utilize SCF Banking?	415
16.6 MSME Act of 2006 (The Republic of India)	416
16.7 How Can SMEs Capitalize on SCF Opportunities?	417
16.8 The Importance of Cash Flow in SCM	418
16.8.1 Factoring Problem	420
◆ Conclusion	422
◆ Key Terms	422
◆ References	423
◆ Discussion Questions	423
◆ Critical Thinking Questions	424
◆ Project Assignments	424
CHAPTER 17	
Approach to Supply Chain Assessment and Excellence	
<hr/>	
17.1 Introduction	425
17.2 Assessment of Supply Chain	426
17.3 Why Supply Chain Assessment?	427
17.3.1 To Understand Dynamic Changes in Demand Parameters and Changing Demand Characteristics	427

	PAGE
17.3.2 To Validate the Current Process, Roles, Responsibilities, and Their Effectiveness	428
17.3.3 To Measure the Efficiency of Resources Deployed and Probe the Scope for Improving the Same	428
17.3.4 To Identify Redundant Activities and Roles and Study the Elimination of the Same	429
17.3.5 To Comply with Internal Control Mechanism as Part of Management Audit	429
17.3.6 To Strategize Growth Plans as Part of Improvement Initiatives	429
17.4 Mechanics of Supply Chain Assessment	430
17.5 Barriers to Audit and Improvement	434
17.5.1 Lack of Commitment from Top Management	434
17.5.2 People	435
17.5.3 Role Agents	435
17.5.4 Fear of the Unknown and Resistance to Change	435
17.5.5 Behavioral Constraints	435
17.6 Approach towards Excellence	436
17.6.1 Benchmarking for Excellence	437
17.6.2 TQM for Excellence	437
17.6.3 Supply Chain Re-engineering for Excellence	438
17.6.4 Aiming Awards for Excellence	438
17.6.5 Reference Models for Excellence	439
17.7 Supply Chain Assessment Services in India	440
17.8 The Case of Supply Chain Assessment (Sarva Sampurna Engineering Limited)	441
◆ Summary	442
◆ Key Terms	442
◆ Concept Review Questions	443
◆ Critical Thinking Questions	443
◆ References	444

CHAPTER 18 Supply Chain Organizational Issues

18.1 The Supply Chain Gamut	445
18.2 Role of Supply Chain Managers	446
18.3 Variety of Roles in Supply Chain	448
18.4 Horizon of People and Organizational Issues in SCM	449
18.5 Corporate Size, Business Complexity, Ownership Pattern, and Impact on Decision Making	452
18.6 Intra-Organization Decision-Making versus Outsourced Supply Chain	454
18.7 Empowering Professionals in Supply Chain Decision-Making	454

	PAGE
18.8 Technology Applications for Supply Chain Organization Decisions	455
◆ Summary	456
◆ Key Terms	456
◆ Discussion Questions	457
◆ Critical Thinking Questions	458
◆ Project Assignments	458
◆ References	458
CHAPTER 19 Supply Chain Performance Management	
19.1 Importance of Supply Chain Performance Measurement	459
19.2 Performance Measures – Perspectives	460
19.3 Performance Measures Approaches	461
19.3.1 Traditional Approach	462
19.3.1.1 Productivity Measures	462
19.3.1.2 Quality Measures	463
19.3.1.3 Customer Service Measures	465
19.3.1.4 Cost Measures	468
19.3.1.5 Asset Measure	469
19.3.2 Drawbacks in Traditional Measures	470
19.3.3 Contemporary Supply Chain Measurement Approach	471
19.3.3.1 Analytical Framework	471
19.3.3.2 Process Orientation	472
19.3.3.3 Linkages	472
19.4 Evaluation of Performance Metrics	472
19.4.1 Balanced Scorecard and Supply Chain Metrics	472
19.4.2 Activity-Based Management and Costing	476
19.4.3 Economic Value Added (EVA)	477
19.4.4 Process-driven Metrics	477
◆ Conclusion	478
◆ Summary	478
◆ Key Terms	479
◆ Discussion Questions	480
◆ Critical Thinking Questions	481
◆ Project Assignments	482
◆ References	482

CHAPTER 20 Case Studies

1.	An Overview of Selected Global Supply Chain Services Firms	486
2.	An Overview of Selected Integrated Supply Chain Service Providers in India	494
3.	Impact of the Pandemic on the Logistics Sector	499
4.	Nagpur: A Potential City to Grow as a Robust Logistics Hub	503
5.	Trends in Containerization 2.0: Global and Indian Scenario	506
6.	Truck Lay-by in India: A Case Study of a Private Facility	511
7.	Manufacture of Cement and Its Transportation in India	516
8.	Goodwill Logistics CEO's Dilemma over Dedicated Trucks Business	519
9.	Gujarat Engineering Company Ltd: Transportation and Supply Network	524
10.	A New Supplier Development by Chennai Electrical Equipment Ltd.	531
11.	Cost Competitiveness of Two Similar Operating Units	537
12.	Walmart: Technology Initiatives for Supply Chain Processes	540
13.	Approach to Excellence Framework: A Case Study	544
14.	A Dilemma of Insourcing or Strategic Sourcing Close to the Customer	554
15.	Building Blocks of Solar Power: Perspective on Supply Chain Network	561
