TAXMANN®.AI

AI that Carries
a Legacy of Trust.

Powered by Content You Have Relied On.

From Books to Bots—Our Promise Remains the Same. Reliable Information.

For over sixty years, Taxmann has stood beside India's legal and tax professionals—offering content that is reliable and accountable. Across books, journals, and digital platforms, we have built Reliable Information that professionals rely on every day.

Taxmann.AI carries that same promise into a new medium.

It is built to serve the same purpose we have always stood for—delivering answers you can trust, drafts you can depend on, and tools that support your practice.

This platform is not here to make decisions for you.
It is here to ensure that every decision you make is backed by clarity and credibility.

What is Taxmann.AI?

AI-powered legal & tax research and drafting—built on Taxmann's trusted content backbone.

Taxmann.AI is an intelligent platform for legal and tax professionals—designed to simplify research, accelerate drafting, and bring structure to your everyday work relating to Income Tax & GST.

It merges the depth of Taxmann's verified tax and legal database with the power of a deep research engine and the responsiveness of AI built with cutting-edge technology. It understands, structures, and supports your journey.

It is AI—but it thinks like a professional. Because it was built for one.

Ask Questions
Get responses grounded in law—not speculation

Draft Smarter*
Generate notice replies in structured formats

Document Insight
Extract, Interact & Integrate document facts into AI responses

Work within MS Word
Access all tools inside your workspace

Cite with Confidence
Rely on verified Taxmann sources

Why Taxmann.AI?

Because professionals deserve more than just fast answers—they deserve verified ones.

In the world of tax and law, speed means nothing without trust. Professionals operate under pressure—but there is no room for imprecision. Most AI tools are not built for this—they guess, skip sources, and sacrifice structure for speed.

Taxmann.AI is built to change this.

It combines the authority of India's most trusted content with the agility of AI—bringing structure and clarity into your daily work.

Built for Accountability

Every response comes with verified source.

You'll always know what's being said—and where it's from.

Trusted Sources Only

Every response is rooted in six decades of verified legal and tax content.

No guesswork. Just law.

Designed for How You Work

From legal research to drafting, every tool fits into your practice.

Professionally Structured Outputs

The platform follows professional formats.

So you do not just get answers—you get usable content.

What You Can Do with Taxmann.AI?

Built Around You—the Way You Work.

From answering your most challenging questions to drafting responses that hold up to scrutiny, Taxmann.AI is designed to support your practice—whether you are exploring a complex provision, responding to a notice, or advising a client. With decades of trusted legal content at its core and intelligent tools built for reliability, structure, and speed, it brings confidence, clarity, and control to every step of your practice.

Ask with Precision –
Pose any tax or legal query in plain language—get reliable and verified responses instantly.

Draft with Structure* –
Build professional-grade replies of notices, and documents—with clarity, legal backing, and format control.

Tools That Work for You –

- **My Library* –** A personal workspace where all queries, responses, and uploaded documents are automatically organised for easy reference and reuse.
- **Document Insight –** Upload one or more legal documents to generate structured summaries, ask context-specific questions, and use document facts directly in AI-generated responses—with clear paragraph.
- **MS Word Add-in –** Access Taxmann.AI's features within your familiar environment.
- **Redaction Tool –** An offline tool for users who prefer to remove or anonymise sensitive details from documents—before using them for AI-assisted research or drafting.

Ask Bot by Taxmann.AI

Your Personal Legal Research Assistant—Powered by AI.

Do not just search—have a conversation. **Ask Bot** is your always-on research assistant, trained on India's most trusted tax and legal databases. Whether you are exploring a complex query or testing a hypothesis, Ask Bot delivers precise, structured responses—grounded in verified sources and built for professional clarity.

Conversational Research

Type your question naturally—Ask Bot interprets, clarifies, and responds. It understands the nuanced language of law and guides you through complex topics interactively.

Dual Response Modes

Get answers in the format that suits your need—*short or detailed.* Taxmann.AI intelligently analyses your query to determine the ideal response length, but the choice is always yours. Whether you need a quick clarification or a comprehensive legal explanation, both formats are completely verified and ready for reference.

Source-Backed Transparency

Every response is verifiable. Ask Bot does not hallucinate—it shows you the exact sources used to derive the answer, from Taxmann's Acts, Rules, Circulars, Notifications, Case Laws, Expert Opinions or Commentaries

Customisation That Fits You

Select filters to refine your results—by content type (statutes, case laws, etc.) or legal domain. The system even adapts to your user persona and practice style.

Workflow Integration

Download responses directly in Word or PDF. Structured with headings and subpoints, the output is ready for internal memos, presentations, or case prep.

Reliable. Transparent. Verified.

No hallucinations. No fabricated laws. ASK Bot is trained on Taxmann's entire legal ecosystem, ensuring every response is grounded in reality—not assumptions.

One-Click Prompt Improvement

Understands your intent and improves your question in one-click to deliver the best possible response.

Iterative Rewrite

Add instructions to refine the response—expand reasoning, shift focus, or include judicial references—without restarting the query.

Draft Bot by Taxmann.AI*

Your Legal Drafting Assistant—Powered by AI.

When a notice lands or a response is due, time is tight—but quality cannot slip. **Draft Bot** helps you move from input to output seamlessly—validating procedural details, identifying legal and factual issues, and generating a structured, editable reply. It is grounded in law and built for practical use.

Upload or Input—Your Way

Upload a notice or enter brief context—Draft Bot reads it like a practitioner would. It detects key details, validates procedural elements, and sets up the foundation for a structured, professional draft.

Built-In Notice Validation

Not all notices are valid. Draft Bot checks for authority signatures, Document Identification Numbers (DIN), time limits, and procedural compliance—before you begin a reply.

Strategic Issue Breakdown

Draft Bot separates legal and factual issues automatically, structuring your reply as any experienced professional would—with clarity, flow, and logical sequencing.

Draft Bot Built on Legal Grounding

Replies include applicable provisions, case laws, and administrative guidance—all presented in a format that is ready to refine or send.

Collaborative & Editable

Want to add your own arguments? You can regenerate, add custom issues, or adjust tone with a click.

Smart Dashboard for Practice Management

Every draft is saved client-wise and can be organised by notice type or date. Reopen, edit, or download responses instantly—perfect for firms handling high volumes or repeat matters. Built on past work, adapt replies, and ensure consistency across similar cases.

*Coming Soon

What Else Can Taxmann.AI Do?

Smart Capabilities that Complete your Practice.

Beyond Ask and Draft Bots, Taxmann.AI is equipped with intelligent features that simplify your day-to-day work—helping you organise, gain insights from documents, and protect sensitive information with clarity and control. From saving time on repetitive research to refining documents inside your drafting environment, these built-in capabilities are designed to support every part of your professional journey.

My Library*
Organise Your Research, Reuse What Works

Every query, draft, and saved prompt exists in your personal Library. Track past work, access verified prompts, and revisit client-wise activities—so nothing gets lost, everything stays connected.

MS Word Add-in
Work Where You Already Do

Conduct research, insert responses, and refine drafts directly inside Microsoft Word. Maintain formatting, avoid context-switching, and reduce copy-paste errors—all without leaving your document.

Document Insight
Understand Documents, Not Just Read Them

Upload documents to generate structured summaries, ask document-specific questions, and integrate document facts into AI responses—supported by clear paragraph.

Redaction Tool
Protect Sensitive Information

While Taxmann.AI keeps all your data private and confidential by default, the Redaction Tool is available for users who want an additional layer of control. It allows you to redact or anonymise sensitive details in documents—before using them for AI-assisted research or drafting.

*Coming Soon

Built for Confidentiality | Security | Professional Ethics

Your Work. Your Data. Always Protected.

Taxmann.AI understands the responsibilities that come with legal and tax practice. Every query, document, and draft is handled with strict confidentiality. Nothing isused to train models, and no data is shared across users or systems. The platform uses enterprise-grade encryption, internal access controls, and isolated environments to ensure your work stays private, secure, and professionally protected—just as it should. For users who prefer an additional layer of control, an optional offline redaction tool is available to anonymise sensitive details before use.

No Data Sharing
Your drafts, questions, and documents are never used to train AI or shared across accounts.

Enterprise-Grade Security
All data is stored using robust encryption protocols and institutional access standards.

Private Workspaces
Client-wise activities, drafts, and queries remain strictly within your account.
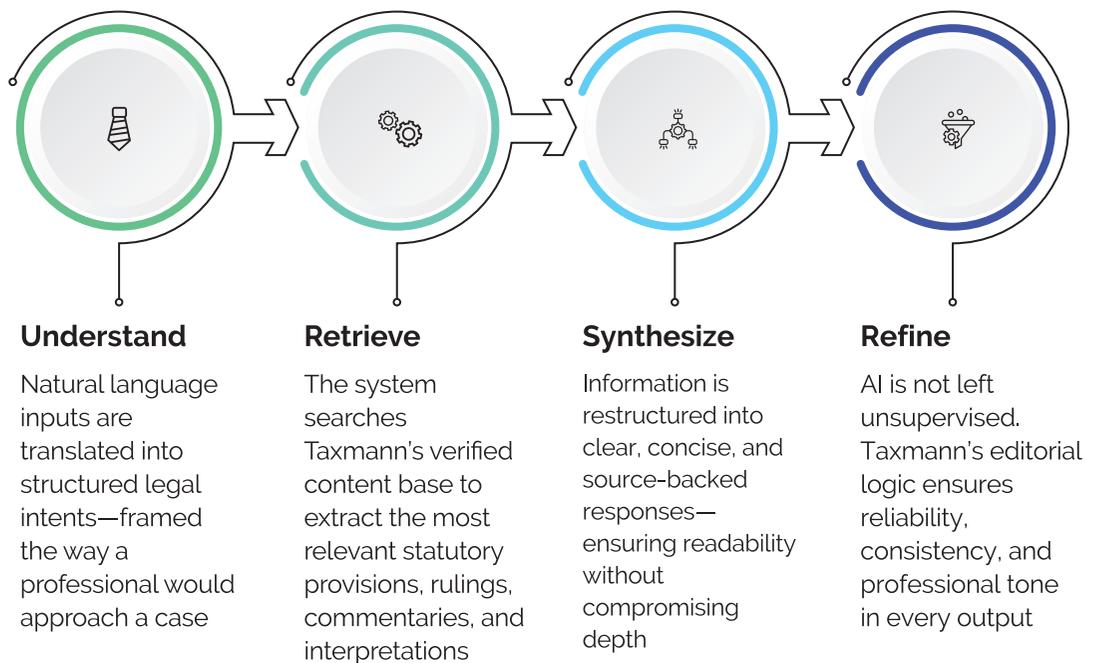

Always Confidential
Feedback improves the platform—but never at the cost of your data's privacy.

The Science Behind Taxmann.AI

Legal Precision | AI Efficiency—Seamlessly Combined.

Taxmann.AI is built to understand how legal professionals think—and how legal systems work. Every response is powered by a refined pipeline that mimics the reasoning of seasoned practitioners, not just machine output.

Here's how it works

Understand
Natural language inputs are translated into structured legal intents—framed the way a professional would approach a case

Retrieve
The system searches Taxmann's verified content base to extract the most relevant statutory provisions, rulings, commentaries, and interpretations

Synthesize
Information is restructured into clear, concise, and source-backed responses—ensuring readability without compromising depth

Refine
AI is not left unsupervised. Taxmann's editorial logic ensures reliability, consistency, and professional tone in every output

That is why when you use Taxmann.AI, you do not just get AI responses—you get legal-grade answers, grounded in the authority of India's most trusted content ecosystem.

FAQs of Taxmann.AI

Getting Started

1. **What is Taxmann.AI?**

    Taxmann.AI is an intelligent, AI-driven platform specifically designed for legal and tax professionals, providing efficient, reliable, and structured solutions for research and drafting* using verified legal content.

2. **Who can benefit from Taxmann.AI?**

    Taxmann.AI serves legal and tax professionals, including lawyers, CAs, CS, corporate legal departments, revenue officers, tax advisors, judicial members, and others, seeking precise, reliable, and quick assistance.

3. **Is Taxmann.AI the same as Taxmann.com?**

    No. Taxmann.AI is an advanced, AI-driven platform offering interactive, conversational tools. It leverages Taxmann's authoritative, decades-rich database of legal and tax content, extending its legacy into intelligent solutions designed specifically for legal and tax professionals.

Bots & Tools

1. **What are the key bots available in Taxmann.AI?**

    Taxmann.AI currently includes:

    - **Ask Bot (Available) –** An AI-driven conversational assistant for structured and precise legal and tax research.
    - **Draft Bot (Coming Soon) –** Automated drafting assistant generating comprehensive responses to tax and legal notices.

2. **What supporting tools are available on the platform?**

    Taxmann.AI is supported by intelligent tools designed to enhance research, document understanding, and drafting efficiency:

    - **Document Insight –** Upload one or more legal documents to generate structured insights, ask document-specific questions, and use document facts directly in AI-generated responses with clear paragraphs.
    - **My Library* –** A personal workspace where all queries, responses, and uploaded documents are automatically organised for easy reference and reuse.
    - **MS Word Add-in –** A downloadable add-in that allows you to access Taxmann.AI tools directly within Microsoft Word for seamless drafting and research.
    - **Redaction Tool –** An optional, downloadable utility that allows users to anonymise sensitive details in documents before using them for AI-assisted research or drafting.

*Coming Soon

3. **Is it mandatory to redact documents before using Taxmann.AI?**

No. Redaction is not mandatory.

All user queries and documents on Taxmann.AI are handled with strict confidentiality and are never used to train models or shared across users.

The Redaction Tool is provided as an optional additional layer for users who prefer to anonymise sensitive information due to internal policies or personal preference.

4. **What is Document Insight, and how does it work?**

Document Insight allows users to upload one or more legal documents and extract a structured understanding from them.

Users can:

- Generate clear, organised insights from lengthy documents
- Ask context-specific questions based on uploaded documents
- Use document facts directly in AI-generated responses

5. **Does Taxmann.AI integrate with Microsoft Word?**

Yes. Taxmann.AI offers a downloadable MS Word Add-in that allows users to access Ask Bot and other AI features directly within Microsoft Word.

This enables research, drafting, and refinement of documents without switching applications, while preserving formatting and document structure.

Using Ask Bot

1. **How do I phrase my questions to Ask Bot for the best results?**

Clearly and specifically describing your query, context, and facts in natural language is sufficient to receive a well-researched and valid response.

2. **What is the 'Improve Prompt' feature in Ask Bot?**

Improve Prompt helps users refine unclear or incomplete queries before generating a response. It restructures the question into a clearer, more precise form, ensuring better accuracy and depth from the very first answer.

3. **What does the 'Rewrite' option do?**

Rewrite allows you to refine or reshape the generated answer without changing your original question. You can request deeper analysis, add case laws, shift focus to any particular provision, or generate an alternative interpretation within the same conversation.

4. **What is 'Concise Style' and when should I use it?**

Concise Style produces shorter, to-the-point answers from a limited & relevant set of content for situations requiring quick clarity. You can switch back to detailed explanations whenever they need more comprehensive reasoning.

5. **Can I ask multiple follow-up questions?**

Yes. Ask Bot supports conversational continuity, allowing multiple follow-up questions within a single conversation thread.

6. **What type of legal content does Ask Bot cover?**

    Ask Bot addresses your queries on Income Tax and GST matters. The responses are generated based on all content available on Taxmann's databases, including statutory provisions, case laws, circulars, notifications, commentaries, and others.

7. **Can Ask Bot replace professional legal advice?**

    No. Ask Bot assists with legal research by providing structured and verified information, but it should not be used as a substitute for professional judgment or legal advice.

8. **Do responses include citations or references?**

    Yes. Every response is structured and includes hyperlinks to primary and secondary sources, as well as citations for instant verification.

9. **Can I access my previous conversations?**

    Yes. During the active trial or subscription, your queries remain accessible for further interactions; however, they are read-only after the trial or subscription expires.

10. **What sources does Taxmann.AI use to answer my queries?**

    Taxmann.AI generates responses exclusively from Taxmann's authoritative databases, including Acts, Rules, Circulars, Notifications, Case Laws, Treaties, Commentaries, Books, Tariff, Articles, and others.

11. **Are the source links provided in responses accessible?**

    Yes. All Taxmann.com | Research links cited in AI-generated responses can be opened without requiring a separate subscription to those platforms.

    Please note that every link you open that the AI cites in its response will count toward your link usage limit (350 or 700 links, depending on your plan).

Comparison with Other AI Tools

1. **I already subscribe to other AI tools. How is Taxmann.AI different?**

    Taxmann.AI is specifically tailored for legal and tax professionals, built on six decades of verified, professional-grade content from Taxmann. Unlike generic AI tools, Taxmann.AI provides structured, authoritative, and source-verified responses tailored explicitly to legal and tax scenarios, ensuring reliability, context-awareness, and minimised risk of hallucinated or unsupported outputs and relevance to Indian statutes and judicial interpretations.

Free Trial

1. **How does the free trial work?**

    The free trial provides complimentary access to explore Taxmann.AI's core capabilities, including the Ask Bot, for 10 days or up to 10 queries, whichever is earlier. Once the trial period expires or the query limit is reached, the account switches to read-only mode.

2. **Can I extend my trial if I need more time?**

    No. The free trial is time-bound and provided as a one-time opportunity to evaluate the platform. Extensions are not available.

3. **What if I do not use all my queries within the trial period?**

    The free trial is valid for 10 days or up to 10 queries, whichever is earlier. Any unused queries or remaining access will automatically expire at the end of the trial period and cannot be carried forward.

4. **Can I get another free trial using a different email or phone number?**

    No. Each user is eligible for only one free trial. Multiple registrations using different credentials are monitored and may be restricted.

5. **Can I update my email or phone number after activating the trial?**

    No. Trial access is linked to the verified email ID and phone number used at registration.

Technical & Device-related

1. **Is Taxmann.AI accessible on mobile devices or tablets?**

    Yes. The platform is web-based and fully compatible with desktops, tablets, and smartphones.

2. **How many devices can access my account simultaneously?**

    You can log in to your account from the number of devices permitted under your plan. However, only one active session is allowed at a time. If you log in from another device, your previous session will be automatically logged out. This helps prevent unauthorised sharing and keeps your data secure.

3. **Is special training required to use Taxmann.AI?**

    No special training is required. Taxmann.AI is designed to be intuitive and easy to use for legal and tax professionals.

4. **Will Taxmann.AI integrate with other software I use?**

    Taxmann.AI includes integration with Microsoft Word for seamless research and drafting.

5. **What is the difference between login devices and active sessions?**

    Login Devices refer to the number of devices from which a single user is permitted to log in to their Taxmann.AI account, as specified in the pricing plan (for example, 1 or 2 devices).

    Active Sessions refer to the number of sessions that can be used simultaneously. Concurrent use of the platform is permitted only in a single session at a time, regardless of the number of devices allowed under the plan.

    This means that even if your plan allows multiple-device login, you can use Taxmann.AI on only one device at a time. If you log in and start a session on another device, you will be automatically logged out of your previous devices/sessions.
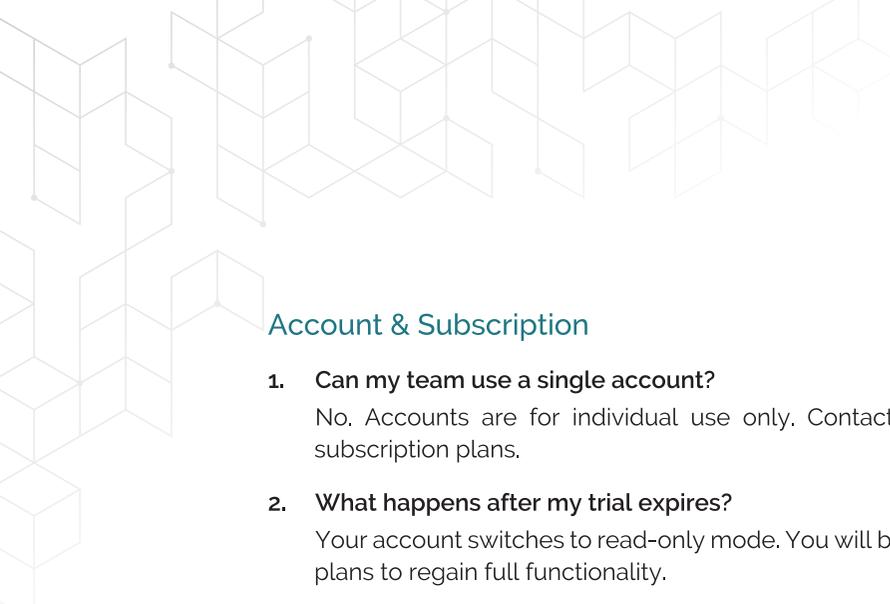

Data Privacy & Security

1. **How is my data protected on Taxmann.AI?**

    Your data remains confidential, protected by enterprise-grade encryption, stringent access controls, and secure environments, ensuring compliance with industry-standard privacy laws.

2. **Is my data shared or used to train AI models?**

    No. Your data is private, not shared with others, and is not used to train AI models.

Account & Subscription

1. **Can my team use a single account?**

   No. Accounts are for individual use only. Contact our sales team for team or corporate subscription plans.

2. **What happens after my trial expires?**

   Your account switches to read-only mode. You will be guided to explore available subscription plans to regain full functionality.

Regional & Language Support

1. **Does Taxmann.AI support languages other than English?**

   Currently, Taxmann.AI only supports queries and responses in English.

2. **Can I use Taxmann.AI for international jurisdictions?**

   Currently, the platform is specifically designed for the Indian legal and tax systems.

Support & Feedback

1. **How do I contact support?**

   Support is available via email and phone. Our dedicated support team ensures prompt and effective assistance.

2. **Can I suggest new features or improvements?**

   Yes, we encourage users to submit suggestions and feedback via the platform's feedback option or by contacting our support team directly.

About Us

A New Chapter in Legal Excellence.

Taxmann.AI comes from the house of Taxmann—a name trusted by generations of legal professionals in India. With six decades of content credibility and an unwavering focus on precision, we created Taxmann AI to bring intelligent legal assistance to your fingertips—rooted in source, designed for daily practice

Our Mission

At Taxmann.AI, our mission is to simplify how professionals work with tax and legal content—making research faster, drafting more structured, and every output grounded in verified sources.

This stems from a legacy built over six decades at Taxmann, where trust, reliability, and depth of content have always been paramount. Taxmann.AI extends that principle into a modern, intelligent platform that delivers clarity at speed.

We know the weight of your work—the deadlines, the precision, the accountability. That is why this platform is built to surface what matters, handle what repeats, and support your journey every step of the way.

By merging the authority of Taxmann's content with the agility of AI, our mission is clear—to help professionals work smarter—without ever compromising on credibility.

Our Vision

Our vision is simple yet ambitious—to make AI not just intelligent but dependable. We are building a future where legal and tax professionals can rely on Taxmann.AI with the same confidence they have always had in Taxmann's content.

By infusing six decades of editorial credibility into modern legal technology, Taxmann.AI is an efficient tool that reflects professional values. We believe that AI should deliver fast, structured results—and uphold the clarity, discipline, and integrity that legal practice demands.

Our Beliefs

We stand for clarity, not clutter.
We stand for credibility, not shortcuts.
We stand for context, not guesswork.
We stand for privacy, not compromise.
We stand with professionals—every step of the way.

An evaluation based on the IIT Kharagpur benchmarking study

Taxmann.AI has been evaluated using a rigorous **IRAC+**** **legal reasoning framework** developed and documented under the LLM Evaluations for Bharat Tax Laws **(LE-BTL) research study conducted by Taxmann in collaboration with IIT-Kharagpur.**
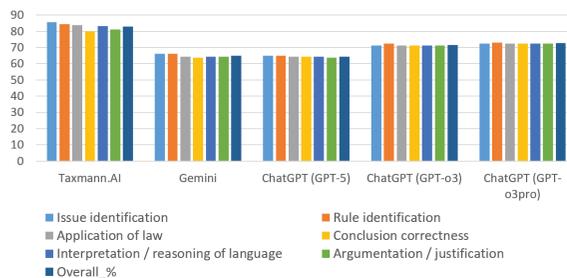

Overall Score

Taxmann.AI

83.02

Gemini

64.90

ChatGPT (GPT-5)

64.48

Where Taxmann.AI Performs Better Than Most AI Models?

Chart categories: Taxmann.AI, Gemini, ChatGPT (GPT-5), ChatGPT (GPT-o3), ChatGPT (GPT-o3pro)

- ■ Issue identification
- ■ Rule identification
- ■ Application of law
- ■ Conclusion correctness
- ■ Interpretation / reasoning of language
- ■ Argumentation / justification
- ■ Overall_%

Application & Justification are where most AI models fail.

Taxmann.AI leads across every stage of professional legal reasoning.

From identifying the issue to justifying the conclusion.

Why This Matters

Most general GPTs are built to generate text. Taxmann.AI is built to reason through tax and legal problems, delivering structured legal analysis.

| Strong on **application of law,** *where generic AI drops* | Clear, defensible **conclusions and reasoning** | Built for **real professional use** |

**IRAC+ is a legal reasoning framework used to evaluate how AI analyses tax and legal issues—not just how it generates answers.
